

WEEK THIRTY-FOUR!

SOCIAL STUDIES

This week we took our states and capitals pretest. We will spend class time up until May 13th studying our states and capitals. We will be rotating between four stations: a hands on station where students use dry erase maps to label the US, online flashcards, a coloring states and capitals packet, and, the students' personal favorite, the game station! Students who tested out of the states and capitals during the pretest are completing an enrichment tic-tac-toe board. Check out the "social studies" tab on the website to see the activities those students are completing.

FIELD TRIP:

We had so much fun on our field trip to the Lincoln Museum in Springfield! Students especially enjoyed the "Through Lincoln's Eyes" presentation, the log cabin, and looking at the infographics throughout the museum.

In **reading** we we continued reading "Auggie and Me". We are almost done with the book! We also took our Spring Math and Reading MAP tests during reading time.

This week in **spelling** we continued practicing for the spelling bee. Please make sure students are studying the words at home, too ☺

Thanks again to those who chaperoned and helped make the field trip a success! 4H appreciates you!

Important Dates

May 10: PTO Meeting
May 16: Spring-up Day/Disney Celebration
May 18: Wax Museum @ 1:30
May 19: Unity Earth Day Event
May 23: Last Day of School! Fun Day!

In **math** this week we started learning about line plots. We even created our own line plots by plotting lengths of string and the size of different items in our class. Next week, we are going to learn how to compare items on line plots and continue creating and reading our own! We are going to also focus on line plots that include fractions!
